

The program shall contain a description of integration efforts with other groups participating in similar efforts in the County. The program must also address household hazardous waste collection by indicating:

- a. intended site/method for disposal
 - b. intended site/method for collection
5. projected volume and types of waste to be managed
6. A program for incorporating any programs operating by Lenawee County.

I. A Trust Fund for the Mitigation of Landfill Problems:

1. A trust fund shall be established at a convenient bank, within Lenawee County, chosen by the Township Board. The operator shall agree to pay \$.10 per cubic yard of waste disposed of, into this trust fund, for the life of the sanitary landfill. Expenditures from the trust fund are to be approved by a committee consisting of one citizen appointed by the Township Board, the Township Supervisor, and one representative of the owner/operator. Funds may be used but are not limited to off-site litter control, groundwater and surface water monitoring and payments to adjacent property owners, and others, at the discretion of the committee, for damages proven to have been caused as a result of the sanitary landfill or its operations. The trust fund shall exist and earn interest for 20 years following closure, and at the time the funds remaining shall be paid to the owner/operator or its successors or assigns.
2. The mitigation of environmental degradation shall be accomplished by limiting the amount of new leachate produced; steps shall be taken which restrict the movement of existing pollutants in the water. When domestic, agricultural or commercial wells lie in the path of a contaminated plume, one of the following possible solutions to the problems of public health, hazard and environmental degradation shall, at the discretion of the Township Board be required of the owner/operator of the landfill:
 - a. Immediate purging of the groundwater. Studies must be conducted, at the expense of the owner/operator of the waste disposal area, to determine the extent of the groundwater contamination, cleanup required, and the timetable by which the cleanup will proceed.
 - i. Locating uncontaminated groundwater.
